Re: Oak Street Site, Drum Disposal Area, Taunton, Massachusetts (Site)
Administrative Order on Consent, CERCLA Docket Number 01-2003-00244

Dear Ms. Cooke:

EPA has received the report entitled "Completion of Work Report, Oak Street Drum Disposal Area, Drum Removal Project", dated February 2004 and updated June 2004, as prepared for Zeneca, Inc. (Respondent) by Maverick Construction Management Services, Inc. pursuant to the above-referenced Administrative Order on Consent (AOC). We find it to be an adequate documentation of site activities performed under the AOC, and no further revisions are necessary. The provisions within the AOC have been met, and the Respondent has no further obligations under this AOC.

Please be advised that this determination does not constitute a release from liability, covenant not to sue, or waiver of any claims which EPA may have against the Respondent. In addition, be advised that this determination does not limit EPA's authority under CERCLA or any other law to take future response actions at the Site.

EPA reserves all rights with respect to the Site including, but not limited to, the right to initiate judicial or administrative enforcement actions, the right to recover costs incurred by the United States in connection with the Site, and the right to undertake further response actions and recover the costs of such actions from the Respondent or any other responsible parties.

If you have any questions, please call me at (617) 918-1278.

Sincerely,

Frank Gardner,
On-Scene Coordinator
